Career Objective

MCA graduate with specialized training in Full Stack Web Development from ITVEDANT, aiming to contribute to the development of scalable, secure, and user-centric web applications. Strong in problem-solving and logical thinking, with a passion for building efficient digital solutions ready to make an impact as a developer.

Education

Master of Computer Application (MCA)

Thakur Institute of Management Studies, Career Development & Research,

Mumbai Year of Completion: 2022, CGPA: 7.7

Technical Expertise

Programming Languages: HTML5, CSS3, JavaScript (ES6), React, SQL, Python, JSON

UI & Design Systems: Tailwind CSS, Material UI (MUI), Bootstrap,

Databases: MySQL, SQLite

Tools & Technologies: Git, GitHub, VS Code, Postman, REST APIs, UiPath

Others: Responsive Web Design, API Integration, MVT Architecture, Django ORM, Git Workflows

Software Engineer Intern – React Developer (Jan 2026 – Present)

Techstalwarts Software Development LLP, Mumbai, India.

- Developed responsive web applications using **React.js, HTML5, CSS3, JavaScript (ES6), and MUI**.
- Integrated **REST APIs** using **RTK Query** for efficient data fetching, caching, and state synchronization.
- Improved frontend performance by **30%** through memoization, code splitting, and lazy loading.
- Implemented **JWT authentication**, protected routes, and secure API handling.
- Collaborated using **Git and GitHub** for version control and teamwork.
- Deployed applications using **Vercel and Render**.
- Built reusable and modular React components to improve code maintainability and scalability.
- Designed responsive and mobile-friendly UI ensuring seamless user experience across devices.

Consultant – RPA Developer (Aug 18 – Nov 30, 2025)

STEP One Step Ahead LLP, Mumbai, India

- Developed automation solutions using UiPath for Web, Excel, Email, and PDF processes.
- Built projects like Web Scraping, RPA Challenge Form Filling, and Flight Travel Buddy.
- Created BOT DNA use cases such as Locator, Active Loans, Notary Service, and School Info systems.

Full Stack Developer Intern (Apr 29 – Jun 29, 2025)

VIBGYOR ADVICORP PRIVATE LIMITED, Mumbai, India

- Contributed to a Django-based HRMS with modules like Department, Role, Employee, Task, and Leave.
- Built responsive UIs using HTML, CSS, JavaScript, and Bootstrap.
- Developed backend features with Python, Django ORM, and maintained database relationships.
- Used Git/GitHub for version control and collaborative development.

Projects

Placement360 – AI Mock Interview Platform

Technologies: React.js, Firebase, Clerk Authentication, Google Grok AI, Shadcn UI

- Developed an AI-powered mock interview platform with secure authentication using Clerk.
 - Enabled users to create customized interview sessions based on job role and experience level.
 - Integrated Google Gemini AI to generate interview questions and evaluate user responses.
 - Implemented text-to-speech feedback and AI-driven performance analysis.
 - Managed user data and interview history using Firebase.
 - Designed a modern, responsive interface using Shadcn UI and React.
-

E-Commerce Platform

Technologies: React.js, Redux Toolkit, RTK Query, React Router, Axios, MUI, React Hook Form, Zod, Vite

- Developed a responsive e-commerce application with authentication, product browsing, shopping cart, wishlist, and checkout functionality.
 - Integrated REST APIs using RTK Query and Axios for efficient data fetching, caching, and state management.
 - Implemented search, filtering, sorting, pagination, protected routes, and form validation using React Hook Form and Zod
 - Optimized performance using lazy loading, code splitting, memoization, and reusable component architecture
 - Built a modern, mobile-friendly UI with responsive layouts, dark mode, and seamless user experience.
-

FilmLane – Video Streaming Platform

Technologies: Django, Python, HTML5, CSS3, JavaScript, Bootstrap, MySQL

- Developed a Netflix-inspired video streaming platform with secure user authentication (Sign Up, Login, Logout) and dynamic movie browsing features.
 - Implemented categorized movie listings using Django views and dynamic templates.
 - Managed media content, user sessions, and admin operations using Django ORM and Django Admin.
 - Designed responsive user interfaces with Bootstrap and integrated MySQL for data management.
-

HRMS – Human Resource Management System

Technologies: Django, Python, HTML5, CSS3, JavaScript, Bootstrap, MySQL, Git, GitHub

- Contributed to the development of a Django-based HRMS with modules including Department, Role, Employee, Task, and Leave Management.
 - Built responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap.
 - Developed backend functionality using Django ORM and maintained relational database models.
 - Implemented CRUD operations and business logic for HR workflows while collaborating through Git and GitHub
-

Certifications

- **Full Stack Web Development (Python)** – ITVEDANT Institute, 2024–2025
- **Python for Web Development** – IBM / Coursera, 2025
- **SQL and Relational Databases 101** – IBM / Coursera, 2025
- **Web Development Using HTML and CSS** – IBM / Coursera, 2025
